

Product Bulletin

Date:

October 8, 2025

Update Number:

P2025-24

Subject:

Security+ 3.0™ Service Kits

Product Affected:

Security+ 3.0 Residential Trolley Garage Door Openers

Overview

LiftMaster® is introducing a complete line of Security+ 3.0 Service Kits designed to support the updated residential garage door opener lineup. These kits provide dealers and service technicians with the essential replacement parts to maintain, repair, and extend the life of Security+ 3.0 openers, while ensuring continued reliability, performance, and security for homeowners. For accurate replacement, always refer to the installation manual.

What’s Changing?

The following new service kits will be available for order over the coming weeks, with phased availability by kit type and model family.
