CAPXLV2
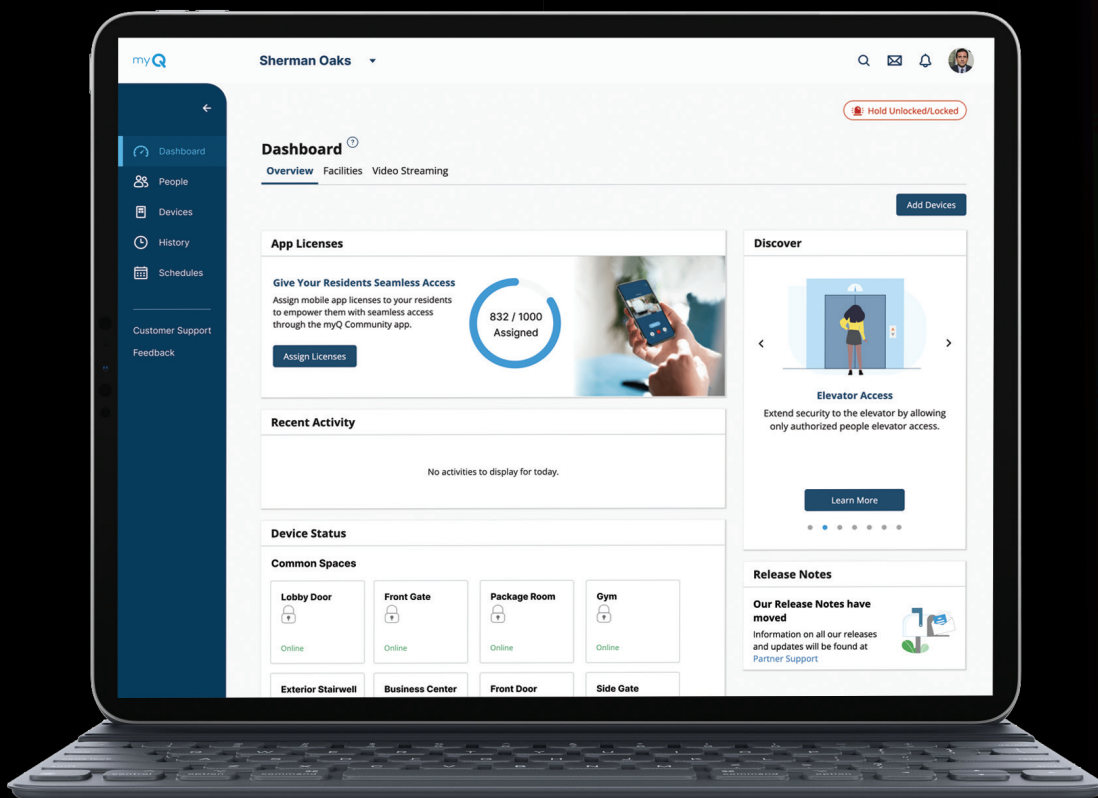

Smart Video Intercom - L

See. Know. Secure.

Designed with both property managers and residents in mind, our Smart Video Intercom's customizable applications help streamline the management of residents, buildings and community access points. Enhance your monitoring capabilities with subscription-based live video streaming and recorded events. Plus, give residents the ability to use their smartphones as an all-access pass to every entryway in the building with the myQ® Community app and myQ Mobile Credentials.

A Scalable Cloud-based Solution

Conveniently control and manage multiple door, elevator, and garage access points across all communities in your portfolio from a single dashboard. Streamline access management with myQ Community, a cloud-based platform that enables remote features such as adding/deleting residents, assigning access to specific entrances and monitoring guest/event requests. Plus, myQ Community has partnership integrations with other Property Management Systems, including RealPage®, and Yardi, with more coming soon. This allows community managers to save time by connecting to property management software for automatic tenant directory uploads.

YARDI

Enhance Your Security

With the required myQ Community subscription, you can securely manage how and when residents—and visitors—access each entrance across every community you manage. You will also receive real-time notifications and remote diagnostics to detect and address issues before your residents are aware of them. myQ Mobile Credentials allows residents to seamlessly enter the community using their smartphones as an ultra-secure key. By eliminating physical credentials—which can be lost, stolen, or cloned—myQ Mobile Credentials makes it harder for intruders to breach the building, and easier for property managers to specifically track who is entering.

myQ Community App - A Smarter Way In

Give your residents the ability to manage property access from their smartphone. Through the app's one-way video calling and two-way voice communication, residents can safely identify guests and confidently grant/deny access from anywhere. Plus, community managers can get rid of key fobs and issue myQ Community app licenses instead. With myQ Mobile Credentials, smartphones are the new all-access pass to every entryway. Residents can use the app to send virtual guest passes or gain access with Apple Watch and Siri at any time, making multi-tasking easy by letting residents unlock any door right from their wrists.

CAPXLV2

Smart Video Intercom - L

This Smart Video Intercom has an intuitive interface with a high-definition color touch display and picture-in picture functionality to provide residents with the modern experience they desire.

Popular Features

Built-in speakers provide digital call quality

Water and sand-proof gasket protects touchscreen

Picture-in-picture function

Durable, scratch resistant and capacitive 10-inch, high-definition color display touchscreen

Provision for internally-mounted proximity reader for credentialed access. Or simply enable myQ Mobile Credentials to give residents the ability to unlock door from a smartphone

Integrated video camera captures video clips for every access event. With the myQ Community app, residents can visually verify guests before granting access

LiftMaster.

myQ

16.87"

11"

3.55"

Integrated Camera

- 135º wide angle camera provides a view of access points through a live feed or recorded event via the myQ Community web platform
- Receive alerts and HD video recordings when an access event is triggered
- Night vision functionality for greater image quality in high and low light environments
- Climate performance includes extreme climate operating range of -20º to 130ºF

Engineering and Diagnostic Capabilities

- Fade resistant, high-definition color touch display
- IP54 weather-proof and IK07 impact-proof ratings
- Advanced self-diagnostics reduce downtime by troubleshooting and identifying when service is needed
- UL 294 listed for commercial settings
- Eliminates trenching with a wireless link to LiftMaster® gate operators

Cloud-based Security

- Two-factor authentication protects and safeguards resident data
- Easily connects to myQ Community to manage multiple entry points and communities from a single dashboard
- Meets California Consumer Privacy Act (CCPA) requirements
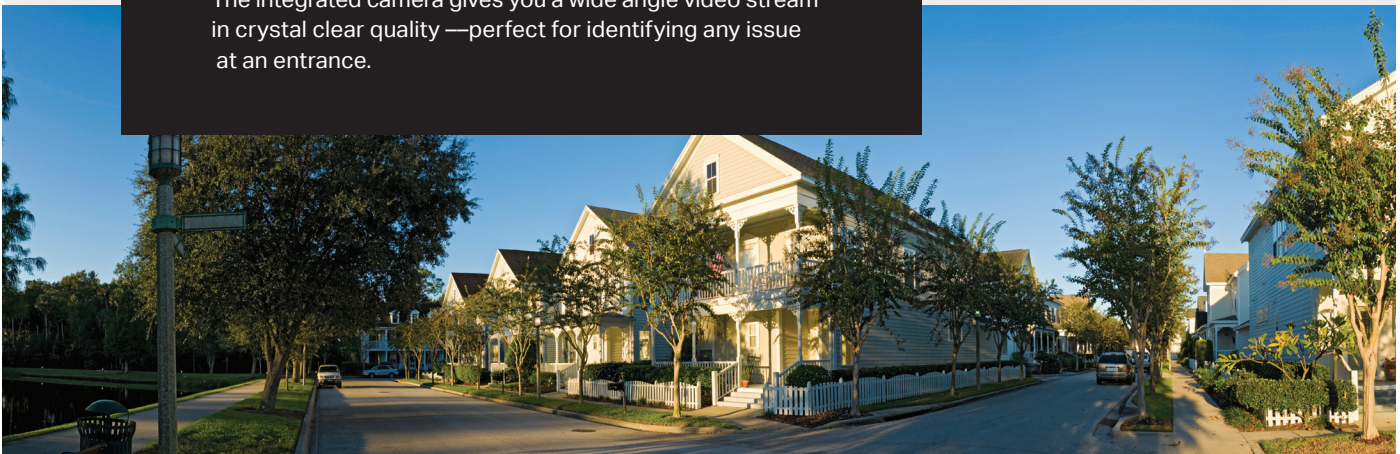

myQ Community App

- Gives residents the ability to manage property access from their smartphone
- Residents can safely identify guests and confidently grant/deny access from anywhere
- With myQ Mobile Credentials, residents receive ultra-secure, encrypted access—using their smartphone as an all-access pass to get around the building
- Residents can "press to unlock" any authorized door/gate for themselves or visitors
- Virtual guest / delivery passes can easily be sent for one-time or recurring use

Customized System Control

- Set schedules by person, time and location
- Six customizable program administration roles so each administrator has his/her own log-in with customizable management levels
- Configurable email notifications alert you to use of a suspended code, tell you when codes are overused or if service is needed for the Smart Video Intercom, Smart Controller or gate operator

See Everything in Wide-angle Video

The integrated camera gives you a wide angle video stream in crystal clear quality —perfect for identifying any issue at an entrance.

Enhance Your Smart Video Intercom System

Provide your residents with an unparalleled access experience by adding the myQ Community app to your amenities. This works seamlessly with the LiftMaster® full line of smart access products and accessories.

CAP2D*

Smart Access 2-Door Controller
A behind-the-scenes powerhouse, the CAP2D provides a cloud-based solution to easily manage and control door, elevator and garage access for resident and community amenity access points.

LMSC1000

RFID Long Range Reader with Vehicle Tags
Reads RFID vehicle tags 20' – 30' away reducing vehicle congestion

SRDRST / SRDRKP

Smart Readers
Multi-technology readers enable myQ Mobile Credentials at additional doors for seamless access throughout the property. Also compatible with common physical credentials.

PPV3M / PPK3PHM / PPLV1-X

**Passport Visor and Keychain Remote Controls with Unique Credentialed IDs**
Offers residents a single solution to access gate, garage and other community entry points**

CAPXLV2TK, CAPXLV2HOOD, CAPXLV2TKHD

Trim Kit Options and Hood for CAPXLV2
Trim Kits and sunhoods are available to install on CAPXLV2 in new installs and retrofit applications.

Subscription and Storage
All Smart Access Solutions require a monthly subscription to myQ Community. Tailor the subscription for your community by increasing the number of app licenses or expanding your video storage capabilities to 30 days.

*All LiftMaster Smart Access Solutions (including CAPXLV2, CAPXM, CAPXS, CAP2D, and CAPAC) require monthly subscriptions to a myQ Community plan. Contact your Dealer or LiftMaster Representative to tailor a subscription plan to fit your community's needs.

**3-Button Passport MAX Remote Controls compatible with the CAPXLV2, CAPXM and PPWR Receiver for gate access control, LiftMaster Security+2.0 and Security+ Residential garage door openers. 1-Button Passport Lite Remotes not compatible with LiftMaster residential garage door openers.

Gated Access
Compatible with CAPXLV2, CAP2D, Smart Readers,
RFID and Passport Remote Controls

Pool Access
Compatible with CAP2D
and Smart Readers

Elevator Access
Compatible with CAP2D
and Smart Readers

Trim and Back Kit
Trim Options for Flush Mount, Surface Mount and
Pedestal mount applications.

Specifications

Construction
- 10", 720p high-definition, fade-resistant touchscreen display with picture-in-picture
- No facility code limitations (1–256 for 26 Bit); "Ignore Facility Code" option available
- Postal Lock Provision
- UL 294® Listed
- 2 year warranty
- Mounting: surface, flush mount or pedestal mount (PED42, PED64)

Dimensions
- CAPXLV2: 16.87" x 11" x 3.55"
- Trim Kit and Hood Options:
  CAPXLV2TK (Narrow): 11.91" x 16.91" x 7.11"
  CAPXLV2TK (Wide): 14.89" x 18.95" x 2.83"
  CAPXLV2HOOD: 11.91" x 16.91" x 7.11"
  CAPXLV2TKHD: 11.53" x 17.38" x 7.28"

Video
- Camera resolution: 1080p
- Frames per second: 25 FPS
- Directional Field of view: 135°
- Storage: up to 1000 events locally and in the cloud
- Phone.com® service required for VoIP and video calls (additional charges apply)

Voice
- DSP, clear, unparalleled audio communications in noisy environments
- VoIP phone service; calls 10-digit numbers
- Phone.com® service required for VoIP (additional charges apply)

Power
- 24VDC, 60W (min.), class 2 output, Level VI efficiency, (power supply input 120VAC, 2A 50/60Hz)
- Power supply included
- PoE (Power over Ethernet), with PoE PSE capability that complies with 802.3bt (Type 3 four wire class 5 compatible) and UL294 with output power as 36-55V and 45 W(Max) per port.

Operating Temperatures
- -20°F to 130°F (-29°C to 54°C)

Built-In Security+ 2.0® Radio
- Integrated Passport Receiver with Security+ 2.0

Input Ports
- 4 Wiegand Inputs
- 8 Monitored inputs that can be mapped separately via the advanced configuration feature in myQ Community
- Compatible Wiegand Input formats: 26 Bit, 30 Bit, 37 Bit (HID), 37 Bit (Transcore), 32 Bit (MiFare), 36 and 56 Bit (MiFare)
- OSDP 2.2, connect up to 4 LiftMaster Smart Readers

Outputs*
- 8 configurable relays
* Each of the 8 inputs and outputs can be mapped separately via the advanced configuration features in myQ Community for any entrance security scenarios
- 12 VDC, 250mA power output for Wiegand devices
- 2 Wiegand (26 Bit) output for elevator or enterprise access control integration
- Controls 8 gates/doors; wirelessly link LiftMaster UL 325 gate operators, (mfd. after October 2017); no need to trench
* SPDT, Rated load 3 amps at 30VDC (each)

Codes & Capacities
- 4 to 8 digit entry codes; 4 to 6 digit directory codes
- 50,000 local user capacity per unit
- 50,000 local event history per unit
- Holiday and hold-open scheduling, including one-time and repeating exceptions

Communication
- Internet via wired Ethernet 10/100 (DHCP, static configuration), or Wi-Fi® (DHCP configuration only)
- Built-in myQ mobile credentials via BLE
- Low Data mode can be setup for cellular based Internet to reduce data uploads/downloads
- Dedicated video bandwidth per CAPXLV2: Recommend a minimum upload bandwidth of 5Mbps. This upload speed should be met when considering usage of other devices on the network like cameras and computers.

Shipping Weight (1 Carton - 21.6" x 13" x 5.7"): 19.8 lbs.
- Includes: 24VDC power supply, gasket set, 2 keys, misc. hardware, manual

Access Data Management
- myQ Community app subscription required per community
- 30 days video storage and additional myQ Community app licenses are powerful, optional add-ons
